

Stain Removal and Preventative Treatments

Fibre Bond Fabric and Fibre Rinse

A specially blended acidic formulation for use as a fixative when cleaning carpets, rugs, upholstery and fabrics prone to colour migration, either from facias or secondary backings.

Fibre Bond will also aid the removal of tea, coffee and other water-based spillages when used as a pre-spray. A light spray will neutralise pH in alkaline cleaners.

Product code: FB

Sta-White

A strong economical de-browning powder for the curing of cellulose browning and fugitive dyes from jute backings. Excellent for restoring the appearance of dulled white carpets and white rug fringes.

Product code: SW

Sta-Kill Deodoriser

A very powerful deodoriser with bactericides. Sta-Kill contains special urine stain and odour neutralising agents that eradicate malodours caused by urine, vomit, mildew, smoke and cooking. With a neutral pH, Sta-Kill may be used effectively on most surfaces and fabrics including carpets, upholstery, curtains, wood, ceramics, plastics and vinyl. Sta-Kill is an excellent pre-spray on soiled items of clothing prior to machine or hand washing as well as a domestic deodoriser. Use after an application of Sanitaire to quickly eradicate malodours from body-spillages in public buildings, schools, vehicles and on ferries etc.

Product code: SK5, SK750T

Sta-Fresh Deodoriser

Sta-Fresh with a subtle, refreshing orange fragrance is a concentrated bactericidal deodoriser formulated either for direct application to carpets, curtains and upholstery fabrics or inclusion with Stapro carpet and upholstery cleaning products.

Product code: SF5

Insecticide

HSE No. 7347 Approved insecticide for control and removal of crawling and flying insects.

This professional use insecticide is suitable for the treatment of infestations in all porous and non-porous surfaces, soft furnishings, carpets and upholstery, roof voids and food handling areas. The treatment should not be vacuumed after application for at least 14 days to control insects emerging from eggs. Not suitable for use on grain, or in grain stores, or for treating clothing.

Product code: INSEC

Rust and Iron Mould Remover

This professional-use treatment has been created for use on carpets and fabrics contaminated by rust or iron moulds - with the exception of those fabrics containing decorative metallic fibres.

Product code: RR

Stain Remover

Probably the most versatile and effective stain remover available. Effective on stains caused by spilt tea, coffee, wine, grease and oil. Removes shoe polish, nail varnish and general stains while also deodorising. Suitable for use on most carpets, upholstery fabrics and wool-mixes.

Product code: SR5, SR750

Urine Stain Neutraliser

For the pre-treatment of acid based stains caused by urine and vomit etc, prior to cleaning. Essential in avoiding a chemical reaction and the flaring-up of old stains during the cleaning operation.

Product code: USN
